REQUESTOR'S POSITION SUMMARY

Requestor's Position Summary: "While our client is already billing at a fair and reasonable rate, they are willing to accept 70 percent of the billed charges. With Texas Political Subdivision already paying the claim at 7 percent of the billed charges, or \$1,673.55, and the appeals process being exhausted at this time; in prayer we ask for an additional \$15.242.65."

Amount in Dispute: \$15,242.65

RESPONDENT'S POSITION SUMMARY

Respondent's Position Summary: "Respondent received the above referenced bills and audited them accordingly. As indicated on the Explanation of Reviews in this case, the bills were reduced on the basis that payments were included in the allowance of other service/procedures, and that the fees were reduced to fair and reasonable with payment based on the Medicare ASC group payment rates of 100% for the primary procedure and 50% for subsequent procedures. The burden lies upon the Requestor to demonstrate the amount of reimbursement it received from the Respondent was neither fair nor reasonable and was not in accordance with the requirements of the Texas labor Code. The appropriate standards the Requestor must meet are clearly delineated in SOAH Docket No. 453-01-1173.M4, et. al. To date, the Requestor in these matters has failed to meet the requisite statutory standard. Wherefore, Respondent seeks a finding the Requestor is due no further funds as a result of its request for additional reimbursements. Respondent respectfully requests consideration of its position stated herein, and seeks continued denial of the additional requested amount of its claimed reimbursement."

FINDINGS AND DECISION

This medical fee dispute is decided pursuant to Texas Labor Code §413.031 and all applicable, adopted rules of the Texas Department of Insurance, Division of Workers' Compensation.

Background

- 1. 28 Texas Administrative Code §133.307 sets out the procedures for resolving medical fee disputes.
- 2. 28 Texas Administrative Code §134.1 provides for fair and reasonable reimbursement of health care in the absence of an applicable fee guideline.
- 3. Texas Labor Code §413.011 sets forth provisions regarding reimbursement policies and guidelines.
- 4. This request for medical fee dispute resolution was received by the Division on July 16, 2007.
- 5. The services in dispute were reduced/denied by the respondent with the following reason codes:
 - 97 Payment is included in the allowance for another service/procedure.
 - W10 No maximum allowable defined by fee guideline. Reimbursement made based on insurance carrier fair and reasonable reimbursement.
 - W4 No additional reimbursement allowed after review of reconsideration.

Findings

- 1. This dispute relates to services with reimbursement subject to the provisions of Texas Administrative Code §134.1, effective May 2, 2006, 31 Texas Register 3561, which requires that, in the absence of an applicable fee guideline, reimbursement for health care not provided through a workers' compensation health care network shall be made in accordance with subsection §134.1(d) which states that "Fair and reasonable reimbursement: (1) is consistent with the criteria of Labor Code §413.011; (2) ensures that similar procedures provided in similar circumstances receive similar reimbursement; and (3) is based on nationally recognized published studies, published Division medical dispute decisions, and values assigned for services involving similar work and resource commitments, if available."
- 2. Texas Labor Code §413.011(d) requires that fee guidelines must be fair and reasonable and designed to ensure the quality of medical care and to achieve effective medical cost control. The guidelines may not provide for payment of a fee in excess of the fee charged for similar treatment of an injured individual of an equivalent standard of living and paid by that individual or by someone acting on that individual's behalf. It further requires that the Division consider the increased security of payment afforded by the Act in establishing the fee guidelines.
- 3. 28 Texas Administrative Code §133.307(c)(2)(A), effective December 31, 2006, 31 *Texas Register* 10314, applicable to disputes filed on or after January 15, 2007, requires that the request shall include "a copy of all medical bill(s)… as originally submitted to the carrier and a copy of all medical bill(s) submitted to the carrier for reconsideration…" Review of the documentation submitted by the requestor finds that the requestor has not provided a copy of all medical bill(s) as originally submitted to the carrier. The Division concludes that the requestor has not met the requirements of §133.307(c)(2)(A).
- 4. 28 Texas Administrative Code §133.307(c)(2)(F)(i), effective December 31, 2006, 31 Texas Register 10314, applicable to disputes filed on or after January 15, 2007, requires that the request shall include a position statement of the disputed issue(s) that shall include "a description of the health care for which payment is in dispute." Review of the submitted documentation finds that the requestor has not provided a description of the health care for which payment is in dispute. The Division concludes that the requestor has not met the requirements of §133.307(c)(2)(F)(i).
- 5. 28 Texas Administrative Code §133.307(c)(2)(F)(ii), effective December 31, 2006, 31 *Texas Register* 10314, applicable to disputes filed on or after January 15, 2007, requires that the request shall include a position statement of the disputed issue(s) that shall include "the requestor's reasoning for why the disputed fees should be paid or refunded." Review of the submitted documentation finds that the requestor has not stated the reasoning for why the disputed fees should be paid. The Division concludes that the requestor has not met the requirements of §133.307(c)(2)(F)(ii).
- 6. 28 Texas Administrative Code §133.307(c)(2)(F)(iv), effective December 31, 2006, 31 *Texas Register* 10314, applicable to disputes filed on or after January 15, 2007, requires that the request shall include a position statement of the disputed issue(s) that shall include "how the submitted documentation supports the requestor position for each disputed fee issue." Review of the requestor's documentation finds that the requestor has not discussed how the submitted documentation supports the requestor position for each disputed fee issue. The Division concludes that the requestor has not met the requirements of §133.307(c)(2)(F)(iv).
- 7. 28 Texas Administrative Code §133.307(c)(2)(G), effective December 31, 2006, 31 *Texas Register* 10314, applicable to disputes filed on or after January 15, 2007, requires the requestor to provide "documentation"

that discusses, demonstrates, and justifies that the amount being sought is a fair and reasonable rate of reimbursement in accordance with §134.1 of this title (relating to Medical Reimbursement) when the dispute involves health care for which the Division has not established a maximum allowable reimbursement (MAR), as applicable." Review of the submitted documentation finds that:

- [Delete or add findings below as applicable this is just a guide, you can add or change stuff as needed.]
- The requestor's position statement asserts that "While our client is already billing at a fair and reasonable rate, they are willing to accept 70 percent of the billed charges."
- The requestor did not submit documentation to support that 70 percent of the billed charges is fair and reasonable.
- The requestor does not discuss or explain how 70 percent of the billed charges supports the requestor's position that the amount sought is a fair and reasonable reimbursement for the services in this dispute.
- The Division has previously found that a reimbursement methodology based upon payment of a
 percentage of a hospital's billed charges does not produce an acceptable payment amount. This
 methodology was considered and rejected by the Division in the adoption preamble to the Division's former
 Acute Care Inpatient Hospital Fee Guideline, which states at 22 Texas Register 6276 that:

"A discount from billed charges was another method of reimbursement which was considered. Again, this method was found unacceptable because it leaves the ultimate reimbursement in the control of the hospital, thus defeating the statutory objective of effective cost control and the statutory standard not to pay more than for similar treatment of an injured individual of an equivalent standard of living. It also provides no incentive to contain medical costs, would be administratively burdensome for the Commission and system participants, and would require additional Commission resources."

Therefore, a reimbursement amount that is calculated based upon a percentage of a hospital's billed charges cannot be favorably considered when no other data or documentation was submitted to support that the payment amount being sought is a fair and reasonable reimbursement for the services in dispute.

- The requestor did not submit documentation to support that payment of the amount sought is a fair and reasonable rate of reimbursement for the services in this dispute.
- The requestor did not submit nationally recognized published studies or documentation of values assigned for services involving similar work and resource commitments to support the requested reimbursement.
- The requestor did not support that payment of the requested amount would satisfy the requirements of 28 Texas Administrative Code §134.1.

The request for additional reimbursement is not supported. Thorough review of the documentation submitted by the requestor finds that the requestor has not demonstrated or justified that payment of the amount sought would be a fair and reasonable rate of reimbursement for the services in dispute. Additional payment cannot be recommended.

Conclusion

The Division would like to emphasize that individual medical fee dispute outcomes rely upon the evidence presented by the requestor and respondent during dispute resolution, and the thorough review and consideration of that evidence. After thorough review and consideration of all the evidence presented by the parties to this dispute, it is determined that the submitted documentation does not support the reimbursement amount sought by the requestor. The Division concludes that this dispute was not filed in the form and manner prescribed under Division rules at 28 Texas Administrative Code §133.307. The Division further concludes that the requestor failed to support its position that additional reimbursement is due. As a result, the amount ordered is \$0.00.

ORDER

Based upon the documentation submitted by the parties and in accordance with the provisions of Texas Labor Code §413.031, the Division has determined that the requestor is entitled to \$0.00 reimbursement for the services in dispute.
